Fountain Avenue Streetscape Project Community Meeting

What's Happening?

The City of West Hollywood is exploring new designs for Fountain Avenue – wider sidewalks, protected bike lanes, new landscaping, safer crossings, and more. Phase 1 changes may affect travel lanes, parking, and how we all move through the neighborhood.

Why This Matters

Fountain Avenue is a vital part of our City, but it is not without challenges. For years, community members have raised important concerns about speeding and safety. Whether driving, walking, biking, or simply living nearby, everyone deserves safe, accessible, and vibrant streets. **With our community's energy and involvement, the Fountain Avenue Streetscape Project is an opportunity to address longstanding issues and make improvements. Together, we can create a future Fountain Avenue that works better for everyone.**

Why Attend?

Your input is vital. The City is working to ensure that there are opportunities for community voices to shape solutions to potential impacts. Take part in this community engagement process to help guide the project as important decisions are made. This is your chance to shape the future of Fountain Avenue.

What to Expect:

- Learn about potential changes (lane and parking reductions, safety upgrades, etc.)
- See the latest concept plans for the first component of the project
- Share your thoughts and concerns with the project team
- Help the City work through impacts and solutions

Meeting Schedule:

- 6 p.m. to 6:30 p.m. – Arrival, refreshments, and open house
- 6:30 p.m. to 8 p.m. – Presentation and Q&A

Let's create a safer, more vibrant Fountain Avenue together!

The Fountain Avenue Streetscape Project is part of California Climate Investments, a statewide initiative that puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment – particularly in disadvantaged communities.
