

*Los Angeles World Airports*

# Los Angeles World Airports

LAX Landside Transportation Program

## Recent Accomplishments

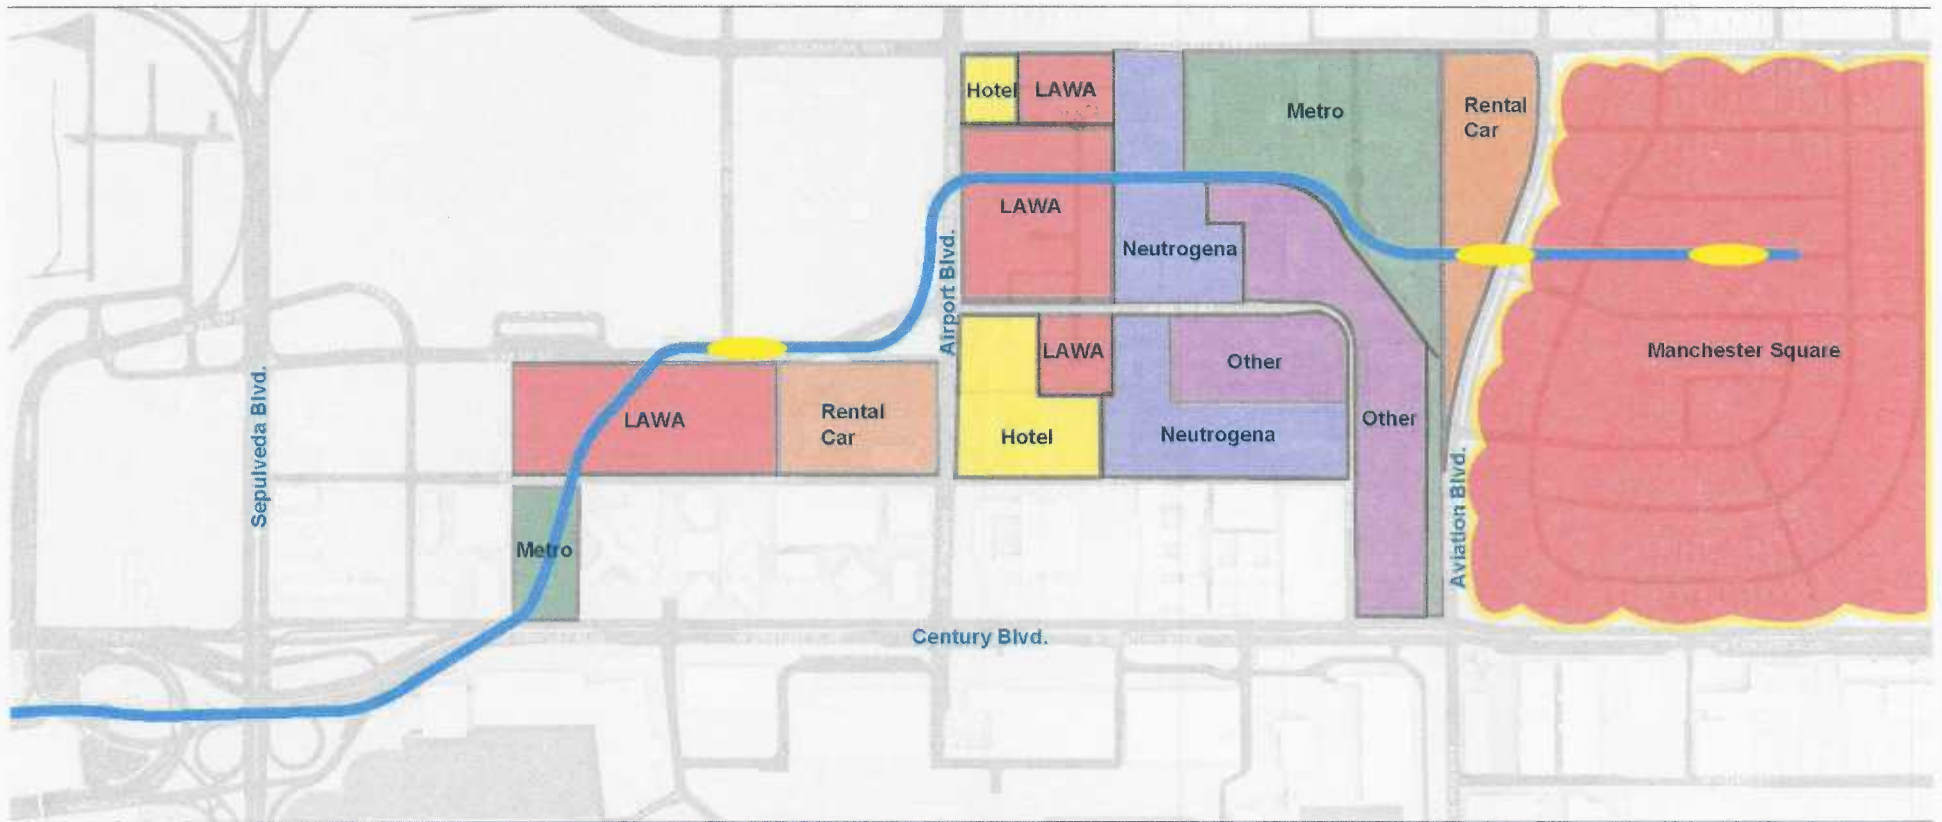

---

- Refined the Automatic People Mover (APM) alignment, Intermodal Transportation Facility (ITF) site and Consolidated Rent-a-Car Center (ConRAC) plan.
- Developed CEQA/NEPA strategy and conducted outreach with key regulatory agencies including FAA, SCAG, AQMD and LADOT.
- Conducted numerous stakeholder outreach meetings including various transit/commercial service providers at LAX.
- Developed project financing model.
- Coordinated meetings with LAUSD, rental car companies and other property owners.
- Working with Metro on construction coordination efforts for the Crenshaw Line, and 96<sup>th</sup> Street station design/EIR coordination for the Airport Metro Connector project.
